

BEAT MORE BURGLARS WITH THE ONLY SECURITY MESH THAT'S SCREW-CLAMPED™!

# Patio Enclosures

Crimsafe patio enclosures provide security for your outdoor living area.

Crimsafe patio enclosures let you secure an exterior area from burglars and bugs. They cannot be effectively pried open, kicked down or cut; ensuring your patio or deck area is safe and secure. Crimsafe's patio enclosure screens can reach from floor to ceiling and can be bent to form a roof or a corner that completely encloses your patio or deck space. The Crimsafe patio enclosure is custom designed and built to complement your home and to meet your specific needs, providing your family the protection and peace of mind Crimsafe has become renowned for.

Crimsafe patio enclosures enhance your lifestyle and safety. A secured patio or deck will allow you to keep your regular windows and doors overlooking the patio open to help keep you home cooler in the summer and enjoy the fresh air all year round without compromising your safety or security. Crimsafe's Tensile-Tuff® mesh helps to reduce solar heat gain by 53% while allowing for unhindered visibility from your home. The enclosure also works as fly screen, allowing airflow in while bugs and other intruders are kept out!

A secured patio looks great and eliminates the needs to put Crimsafe on the doors and windows overlooking the patio, saving you money. It is a great way to make the best room in the house, out of the house. Crimsafe products are nearly impossible to cut, kick down or pry open, ensuring your home is safe and secure. Crimsafe's stylish patio enclosures enhance your home, while providing your family year-round safety and peace of mind.

## Features & Benefits of Crimsafe's Patio Enclosures

Expert installation	Crimsafe Security products are custom built off-site then quickly installed at your home by a Crimsafe Licensed Dealer.
Designed to fit existing structures	The product can fit existing posts, and panels can even be linked back-to-back to form their own T-shaped posts, meaning no new posts are necessary.
Concealed fasteners	Snap-on covers conceal the product's fastener and enhance the smooth looks of the patio enclosure.
Anti-Jimmy leg/gap concealer	Means you can work with posts that aren't 100% straight and that a burglar can't find a leverage point between posts and the Crimsafe screens.
304 Tensile-Tuff® security mesh	At .9mm in diameter, Crimsafe's Tensile-Tuff® stainless steel security mesh is up to 26% thicker than other mesh products on the market, making it stronger and harder to cut or penetrate.
Screw-clamped™ security	Only Crimsafe clamps 304 Tensile Tuff® Security Mesh between 2 serrated pieces of metal, then drives a screw right through both mesh and frame to ensure a 'vice-like' grip...and beat more burglars.
Tamper-resistant stainless steel screws	Exclusive to Crimsafe. Screws can only be inserted or removed by a tool registered with Crimsafe. This ensures the integrity of your security system.
Custom built	Means a perfectly fitted job. Product can be made to fit the design and format of your deck or patio.
Enhanced lifestyle	Crimsafe provides unhindered views, keeps out mosquitoes, and lets you keep a cool, safe house all year round.
Solar heat gain	Solar heat gain is reduced by up to 53% reducing dependence on air-conditioning.
Passes industry standards	Crimsafe always exceeds the relevant Industry Standards for security.
Range of colors	Crimsafe stocks a range of standard colors so that the system you buy complements your home. .
Guaranteed for 10 years	Crimsafe warrants the product from defects in materials under the conditions of normal use for up to 10 years from the date of purchase. Please refer to our Care Guide for more information.

**Live safe with Crimsafe**

## Applications

Increase security and enhance your lifestyle.

- Secure your patio or outdoor living area
- Can be a cost-effective room addition
- Can be used between existing posts to create an enclosure - no need to add new posts and supports
- Use it to provide a screened area in your home, courtyard or backyard
- Can be used as a walkway cover for sports fields or even jails
- Can be used to enclose and secure parking areas

All Crimsafe products feature our patented Crimsafe Screw-Clamp™ technology. Tamper resistant screws first go through a metal clamp, then through Crimsafe's Tensile-Tuff® mesh and then driven right into the frame, to hold the mesh in a "vice like" grip. This patented Screw-Clamp® gives Crimsafe screens enormous strength against attack, unlike inferior products that simply glue or wedge mesh into a frame.
